

Pristine Marine LLC – Capability Statement

Core Competencies

- Custom marine and industrial fabric solutions: canvas covers, upholstery, EVA foam flooring, awnings, and protective enclosures
- Precision CAD and digital scanning (Proliner, PhotoModeler) for accurate fit and repeatable production
- Fabric welding, CNC cutting, and high-capacity 210" x 71.5" plotter for efficient layout and fabrication
- Rope, rigging, and marine carpet supply

Differentiators

- Service-Disabled Veteran-Owned Small Business (SDVOSB)
- One of the only companies in Northwest Ohio equipped with Proliner technology for marine flooring and canvas
- Seamless CAD-driven workflow from digital scan to finished product
- Rapid turnaround with in-house design, sewing, and fabrication team
- Proven reliability with both private sector and government customers

Past Performance

- Installed marine carpet on U.S. Geological Survey Muskie vessel
- Replaced and installed vinyl seats on Jet Express ferries
- Delivered custom canvas and flooring solutions for commercial and recreational vessels across the Great Lakes
